

## Kingswood Post Primary School

Kingswood Post Primary School Tallaght Dublin 24.

### What We Did

Instaspace was awarded the contract to manufacture and install a fully functional single storey, prefabricated, modular building, 1,100m<sup>2</sup> in size, to create much needed additional teaching areas, for Kingswood Post Primary School.

We completed all aspects of the build from site preparation and off-site pre-fab construction to transportation for on-site crane installation, through to fit-out of internal areas and external finishes.

The project brief included the provision of a building that would incorporate space for 6 Classrooms, science lab, art room, technology room, multi-purpose room, offices, toilets and circulation space.

### Key Points

- The finished building was a total turn-key package of the highest standard, delivered within an agreed time frame of 13 weeks.
- This project was completed within an active school environment, with all works carried out according to current building regulations.

- Instaspace delivered total mechanical and electrical installation and fit-out, commissioning, testing and certification.
  - We provided interior decoration and floor covering, in accordance with client specification.
